Summary

Because of my curiosity and discipline, I try to improve myself (person and developer) today bit by bit to stand more confident in the office than yesterday. Thus, ensuring the quality of current and future projects.

I am also very interested in education, psychology, strategy games, ice skating, politics, sci-fi movies, and dystopian books.

Recommendations

Moyosa

Intern Unity Developer

Ferdi Willemse

Senior Unity Creative Developer

It was a pleasure to work with Patrick who was an intern at the time. A quick learner and never afraid to ask questions. He proved to be a great Unity developer and with a good doze of humor and a positive mentality.

Friesland College

3rd Year Graduate

Nils Slijkerman

Teacher Game Design

Patrick is a dedicated learner with a passion for prototyping. He has a clear vision which he can translate to a team. He has successfully led multiple projects. Patrick has many interests. During his study he also taught students of his former school in Game Design.

Friesland College

2nd Year Student

Rando Wiltschek

Teacher Game Development

Patrick is an autonomous and reliable junior programmer. He is able to lead a group and communicate effectively with artists and makes sure he gets what he needs to progress.

CSG-Comenius

Game Development
Instructor

Ben Postma

Teacher at Comenius Zamenhof

Patrick educated first years from the basic level. He taught in an interesting and challenging way. He did not have any problems teaching children with behavioral problems. He also knew to motivate the children in a very smooth way.

Dockinga College

Game Development
Instructor

Anneke Westra Winselaar

Coordinator at Dockinga College

We have discovered that Patrick has a natural talent for teaching. He knows to catch the attention of the students and how to keep it. He works calmly and pleasant with the students. His lessons are thorough, and he knows well to explain what the content of his lessons is.
